“ Dear Family Members,

I taught at Eisenhower where Paula was in the office.....she was always so helpful to me with all the projects and special booklets that my students made....She was efficient and had a great sense of humor....She also had many days of playground duty....I asked her about that one day, because it was so cold.....she never complained but said that she like being outside with the kids in the winter and got a tan in the spring months. I am shocked and saddened to hear of her passing, I trust that you all will have loving memories to be with you for the rest of your days.....I remember how happy she was when the new fence was installed at her house and also how happy she was thinking and planning for the move south after her retirement.....those happy thoughts and conversations move my heart....She loved family so much.....she is the one who introduced me to Dora the Explorer because of her granddaughter.....think of her smile, think of her love for each of you.....May God hold you gently in the days and weeks to come as you miss her presence here on earth.....but we can hold her forever in our hearts and memories.....Diane Stensrud
