“ I have had the pleasure of knowing Adam for about six years. If he was around, you were laughing for sure. He was a great and funny person. I have lots of memories of him that I will cherish forever. He will be sadly missed. My heart aches for all of you.##imported-begin##Linda Marshall##imported-end##

“ Charlene, Rita, and the rest of Adam's family: It was with shock and sadness that I read of Adam's death in today's paper, and I immediately shared the news with Kenny. We both have very fond memories of conversing with Adam when he waited on us at Waffle House, and though we hadn't seen him in awhile, recent encounters with Charlene have kept your family close in thought. I lost my 24 year old brother suddenly several years ago and thus have a sense of the grief and shock you must be experiencing. If there's anything I can do to help, let me know. Please know our thoughts and prayers are with all of you during this difficult time.##imported-begin##Diane & Kenny Klebanow##imported-end##
