“ Alice really consoled me when my husband died of Alzheimer's - since she also was caregiver to her husband with the same. Her warmth was all over her face. When she grabbed your hands and felt her hug you immediately felt comforted. She shared her faith with all.

“ She is not gone she is just away, a temporary thing we will all be joined again one day and then the Angels will sing. we've shared her joy, her Love and pain and put her mind at ease, by standing near and giving strength, our only thought to please. But now she rests, all pain is gone and no more worldly strife, she is not gone, she is now with God and we celebrate her life. jhs

“ What a sweet lady. When asked what was her secret to longevity, she replied "Once you get out of bed, keep moving!" We will always take her advice. She will be greatly missed.

“*Alice was the warmest, kindest, giving lady I've known. She made you feel as though you were the only person that mattered when engaged in conversation with you. She made you feel so special and yet when you tried to tell her how special she was she would always turn the attention back to you. We are all blessed to have known Alice. Priscilla Causey*

“*I will miss seeing your smile at our craft class on Thursdays. The memories of our first Bible class together will always be special to me. You were the person who was always optimistic and enjoyed life to the fullest. I will miss you but know you are smiling with God in heaven.*
