“ I was saddened to hear about the passing of my friend Brad. I worked with Brad for sixteen years at the Schwartz Plant. When I heard he left us my mind was flooded with memories of all of the conversations and different topics we used to discuss on a daily basis.

You see, Brad was a very intelligent man and had a lot of knowledge of many different subjects. I used to say that Brad was our own “in house” political correspondent because he was always very informed on matters of political importance.

Brad was also the only person I ever met who followed the weather more than I did, and we nicknamed him “Brad Piotrowski” (local humor) because he always knew what storms were coming along with the severity and duration, all with a high degree of accuracy. How many people knew Brad was a huge Uriah Heep fan? When Brad told me about Uriah Heep I said, “what the heck is that”? I had never heard of them.

Brad loved music, politics, weather, baseball and most of all Amber. Brad was funny and we would frequently laugh about “whatever”. Brad will be forever missed by his work family here at Schwartz. Rest in peace my friend.....Ed Rubick
