“ I think about having to so see the good Doctor every time I pass by his former office on Lafayette and Washington. He gave birth to my sister and me, stitched my head, set my broken thumb (twice) and made many house calls. He did the same for the neighbor kids as well. When my father became sick with cancer, he was there. When my mother recently became sick I had a fleeting thought of Doctor Records and wondered if he would come see my mother. His was a care for patients that is unheard of today. Rest in peace, good doctor!

“ When I was introduced to Carl and Helen at church, Carl insisted that I join him and his wife on Wednesday night dinner. I always sat near or at the table with Carl and Helen. We talked about everything. It wasn't until many years later when I dragged my in-laws to a dinner that I even knew that Carl was a physician. To me , he was just Carl. Fond memories I will always cherish.

“ Dr. Records was an amazing person and doctor. He made house calls & left medication to take . Parents were able to stay home with the sick child or in most homes back then with large families it would be children. He also took time to talk with the parent during the house call. Ability to pay whether a house call or office visit was worked out later . He gave all to everyone. He was a dapper dresser and his cologne aroma was nice/ you it was him. He just a kind and thoughtful man.

Sincere condolences,
