“ I knew this sweet lady since she and darling Larry moved to SC. I worked at Executive Services prior to her being there. Mary Stanley and I started the company around 1975. The first time I saw Larry, Carolyn told me he was coming in to meet us and he was just a little bit taller than she....I recognized him immediately. What a great guy! My husband and he became great friends and I have thousands of sweet, wonderful memories of our many years together. As her family surely knows, she was a wonderful cook, a very dedicated and efficient worker. Needless to say, she was a great teacher and a wonderful musician. Larry and Carolyn came to my house in Florida on one of their last trips together. I can see them dancing in heaven. They were both very special and I loved them very much.

“ We have 40 years worth of memories with Carolyn and Larry and every time we gather with both families we get plenty of laughs talking about the past.
The last time we were all together Dave asked her to play some Sinatra songs on the piano and she said oh I can't play anymore, well after a little begging she got right into it and the next thing you know we were singing and dancing and it was a great night for all of us, happy times!!!!Carol and Dave
