“ For those of you who did not know, my father was diagnosed in early June with Glioblastoma, the most aggressive type of primary brain tumor. He fought for nearly nine months until he passed away on March 4, 2011 from the disease. Just eight months prior to the brain cancer diagnosis, my father survived a heart attack and a four vessel bypass. He recovered quite well after heart surgery. My father endured a lot this last year and a half. I am proud and amazed on how well he handled these life changing events. A few months ago, he said if he wrote a book he would title it "From Heartache to Headache."##imported-begin##Tracy Johnson##imported-end##

That's my dad for you, always helping his daughter out when he could. Thank you all for your thoughts and prayers.###imported-begin###Tracy "Sissy" Johnson###imported-end###
