“ I have known Diana since I was in 9th grade. I am so thankful to her for raising such an amazing daughter, Arielle, who has been my best friend in this world. Diana was a great mother who gave her daughter everything she could. And in her husband, I am so glad she found such a great love that she had longed for. She was definitely loved! I hope she can rest easy now after any suffering she may have had. Badass til the end!

Peace and love,
Wendy

“ I love you forever mom. You made me who I am today. You instilled in me compassion and concern for others. You taught me to treat animals- especially our pets- with great care and love. 80s music will forever remind me of you. I have all your favorites in my library. Thank you for giving me such an amazing childhood full of happy memories exploring the forests, swimming in the pool, and playing in the backyard with the dogs. I feel you with me always, and until we meet again - Godspeed!
