“ *The outpouring of love, concern and sympathy expressed by all who knew our mother is very heartwarming and gives great comfort for our families and loved ones. Thank you.*

A little over seventy years ago a 24 year old new mother said goodbye to her immediate family in the only place she had ever known as home, with a two month old son they sailed away from Suez Egypt to America. Like her footsteps around the globe, her heart and kindness have left tracks of love and kindness on the many lives she touched. While she never got to visit her mom and dad before their death in Australia, we did visit other family there some thirty years ago and her brother Joe and aunt Jackie visited here often, she did remain in contact through whatever means necessary. Her life and love of family and volunteering was the prevailing character throughout her life which sadly ended on September 23, 2017. My sister and I sincerely wish the best for all of you and your families, always hold them near to your heart no matter where in the globe they may be.

*RIP in GODS' loving hands
