“ Great Grandma, I have many memories of time spent at your house when I was little. I miss having that place to go back to and it is sad that it has been taken from all of us. I will always remember the time spent playing in the driveway, afternoons running through the fields and napping on the porch swing. The summer nights sitting on the back porch, trips to the beach and many other things. You are always with us and one day I hope that we will get your house back again so that we can always keep that part of you in the family. I guess it is more important to some of us than others.
