“ *My childhood memories are ones filled with my baby brother Guy. We loved one another and were very protective of each other. We grew apart geographically but never emotionally. I'm so happy that he led a full and happy life with Linda. I will miss his loving calls and cards and will keep that love in my heart. ❤️ Rest my sweet brother!*

*Uncle Guy and I connected when I was very young. He had the coolest toys, video games (colego vision), and the grandest of all items was his treasure chest full of exotic coins from all over the world. I would do overnights with him and patty. He inspired me to join the US Air Force. He and my awesome cousin TJ. What a life long adventure it was. Eventually it lead me to Nina, Kathy in TX. I wish that I could have kept a relationship with him. My last words with Uncle Guy was May of 1991 when I shared with him my successful 5 years of active duty US Air Force. That was the last I heard from him 😞*
