“ I just wanna say how shocked and sad and I am to hear about the passion of Jonathan. My name is ron pitkin.I met jonathan at my first job that I got in florida in fort.Lauderdale. We clicked instantly and hung out a lot over the years. I was there with him in Louie drowned. He was always good to have a beer with and have some laughs at the bar. When I was out of work, he let me work with him and every day. I would pick them up with his loft, and we would drive over the intercoastal to pick up his truck, and we would look at the ocean talk about how blessed we were. And how we'd love living here. He was one of the most positive people.I have ever met. He created his own universe and had his own successful business. We never started work before eight, and usually we were work till one or two o'clock and then he'd take me to flat against for the great lunch special and have a few drinks and laugh.And talk about life. He was one of my first friends in florida and I don't know how I have a lot of friends in florida, and I counted on him. When my girlfriend moved, he was the only person I could counter to help me move some heavy stuff that I really couldn't handle. My deepest condolences to his mother, his brother and his sister. I'll think about Em, especially when I go now. By the parrot and I drive by where he used to park his truck, he was a big part of my life. And I share in your grief and your sadness.
