“ To the Phenegar family - I learned about June this morning Wed.. I won't be able to be there due to the holidays / travel, but I felt the need to express to you the joy of knowing such a great woman. June, Richard , and I all worked together at the ballpark in it's initial years. I was kind of their supervisor, but in all honesty - being at work with them always meant being at work with my friends. Of all the people that worked for me in 12 years of baseball, June is at the top of the list. Always a smile, classy, a little sassy...just being herself. When they would be up in PA on family visits, I could always 'feel' that they weren't there. Homestands could get pretty long, but June was the one person I could seek out to refresh my head, and truly remind me why I did it for a living...I did it for the people. The fans? Nice, but those faces change nightly. It's faces and personalities like June and Richard that touched me, and guide me every day in handling my family, job, friends, and life with the same grace, passion, and love that I saw in them. The 3 of us had a great visit this summer at the ballgame! One thing I know: the Lord has got his hands full with a spunky new addition. Thank You for allowing me to share in her life.
