“ I remember when this picture was taken. We all went to garden City pier and Grandpa Larry sat and enjoyed some drinks and music and danced. He always looked so sharp when he went out.

“ Mr. Larry always loved it when my kids would come over. Landen, Emery, and Olivia would always have to say hey and talk to him. He will be missed beyond words. This is one of the last pictures that was taken. Mr. Larry would always get excited when I would bring Olivia over to see him. He would smile, hold her, play with her, and ask about all the kids when I would go over without the kids. The smile on his face in this picture says it all. He was always surrounded by family and love and family events and birthdays won't be the same now without him. He will always be known as Grandpa Larry and will always hold a special place in our hearts.
