“*Dr. Alfred was a significant influence on my life at Deerfield Beach high school in 1974 and 1975. He became one of my very best friends, confidence, and the advisor not just in school but in life. Dr. Alfred became my greatest cheerleader as a man and influenced me to pursue English in college I never would've done without his influence. He used to personally attend my track meets and even drove me to the state meet my senior year that is how significant a friendship we had. I ate dinner at his home with his wife at the time many times. When I struggled in a dating relationship and was needed advice and council, I literally walked to his home about 8 miles away in the middle of the night.*

He believed in me at a time when I really needed that support. I am truly saddened to hear of his passing. I had wanted to visit him many times over the years, but never had the opportunity to do so. He always believed that would eventually be in the pastor and indeed I became very involved in Christian ministry most of my life now and I'm continuing to do so.

*Dr. Alfred was a truly significant Friend) and advisor in my life in high school. I'm grateful for him and saddened by this loss.
Sincerely, Louis Escalante.*

Truly, sorry about all the typos. I dictated the post. He would've appreciated my sincere chagrin regarding the grammatical errors.
