“ Dear Family of Mrs. Webb, I was sad to hear of your loss, but understand that she is in a better place. Watching someone that you deeply love suffer, is one of the hardest things that we have to face. There is always comfort in knowing that they are with God and their love ones who have gone on before them. I always adored Mrs. Webb and tribute, partly to her, my love of singing. I can still remember songs that we sang in 7th grade chorus! I still hear her singing "I Feel Pretty", and smiling exuberantly as she sang. I always looked forward to going to chorus class. Melinda, I feel your pain in losing your Mom and friend. I feel fortunate to have had her as a teacher and Mrs. Altman! Mrs. Altman knows how much I loved speaking in her class! Thank goodness, I loved you also! I know that your wonderful memories will help you during this time. Fondly,

“ Mr. Webb, Melinda, Katherine, and Craig, We are saying a special prayer for you during your time of loss. She was a wonderful person and anyone who ever met her will always remember her. She has touched the lives of so many. Melinda, I feel your loss since I lost my mother in May of 1999. But you and I have lost not only our mothers, but also our best friends. It has been said that it is easier to bury one's dead than to forget them. I believe this to be very true. She was so proud of you and Katherine. One of the last times that I saw her, she bragged that Katherine was her eyeball. I'll always remember her telling me that " it is a sorry mother cat who does not love her own kittens". She was a very wise person and also a very kind human being. She always had a smile on her face and it just lit up when she would run into anyone whom she knew and that is what I'll will always remember her for the most. We pray that all of you will be filled with a peace and a special blessing knowing that she is now close to the Lord. May God bless all of you and today, many will share your loss. With all of our love,##imported-begin##Bill, Wendy, Lindsey and Bud Sarvis##imported-end##
