“ I am a retired Emergency Dept. nurse from North AL. I sit in this covered shelter on a rainy day , on a bench that has Logan’s name on it. When I looked her up I realized it was 15 yrs ago today that she passed. This is a beautiful memorial in her honor. Having lost a son less than two years ago, I feel the pain of losing a child. May Logan’s light shine forever. Bless y’all.

“ I have just learned of the passing of your dear loved one, at such a tender age. From reading the expressions left by family and friends, I gather that Logan was a very special person. It is so unfortunate when unforeseen occurrence befall us Eccl. 9:11, but these are the trying times in which we are currently living 2 Tim. 3:1 According to 2 Corinthians 1:3,4 God is the Father of tender mercies, who comforts us during our tribulations. These words help us to truly see how much God cares for us. It was never his purpose for us to die, rather he desired for us to possess the earth forever Gen. 1:28; Psalms 37:29; Isaiah 45:18, which is why he has made a resurrection possible in the near future for both the righteous and unrighteous Acts 24:15; John 5:28,29. The thought of a coming resurrection has brought me much comfort when I reflect on my loved ones who have passed away and provide me with the hope of one day reuniting with them. The resurrection will be made possible by means of God's kingdom government mentioned at Daniel 2:44. It will be through this government that we can live the way God purposed. I hope that these words bring you some comfort and give you a hope towards the future. May you read these thoughts from your own bible and meditate on them. Trust these words because God cannot lie Titus 1:2.##imported-begin##Freda##imported-end##

“ Dear Mr. and Mrs. McDonald, I taught Logan this past semester. She was in my Psychiatric Nursing class. I can picture her vividly in the back right corner listening to my every word. She was very invested in all that was said showing me that she really cared about her patients. She wasn't going to miss one thing I said. I usually don't notice every single student. There were 56 in our class but I remember Logan. In fact, I would look at her several times throughout the 3 hour class for confirmation that the other students understood what I was teaching. The most memorable thing about Logan was her ready smile. She loved to laugh, as do I, and I think we had a special bond between us. She enjoyed my sense of humor and we shared a deep caring for our patients. Logan was a great student nurse and the nursing profession lost a wonderful nurse. Many many patients would have benefited with her ready smile and earnest care. On a personal note, I have three children, my youngest is 20. I cannot imagine your loss and the pain you both are enduring. Please accept my deepest sympathy. Also know that you had a very dear child that left her mark already in nursing by her caring and concern she showed to all Psychiatric patients. I'll never forget your beautiful and ever-present smile. Fondly, Professor Head###imported-begin###Professor Head###imported-end###

“ *To Logan and Family, What a great honor and privilege it was to have you in my and my son's life. When I spoke to Cody shortly after hearing of your death,I ask him to give me a few single words to descibe you. His words were: glue, responsible, mothering & you stayed on his butt all the time about his grades. I thought about his words. The glue came from being such a strong member of your earthly family, responsible came from always being the kind of person that did what was right, mothering came from your senior trip to Cancun and how you took care of everyone. I truly appreciate the love you showed my son. You were his first love. Your duty of being the glue, the responsible one, the mothering caregiver & staying on Cody about his grades are over but not forgotten. Like everyone else, I do wish that I had gotten one last minute with you. I know that all of your friends, family & love ones all have a new guardian angel. Thank you and your family for the blessing of having you in my life.##imported-begin##Angela Bigham##imported-end##*

“ Logan, This has been so hard to take. I wish every minute of every day now that I told you how great you were, how much I looked up to you, and how much I wish I knew you even better. It's sad now that you were never able to visit Melanie and I at Wofford, that the last few times we came to Columbia you weren't there, and that I never told you how much Mel loved you and told stories about you. We had a lot of great times, especially in Mexico and our first few years of College. You were a beautiful person and lived life the way it was meant to be lived; to the fullest and filled with love. “ I really dont have the words for this occasion. At one point Logan and I were inseparable. You know me like no one else, and it will be impossible to ever forget the memories we made together. Logan was person that stood up for what she believed in and didn't think twice about it. I wish I had half the maturity, drive, and ambition she possessed. At times like these you were the strongest person to have around. I miss you, but I will always keep our memories next to my heart. I will forever love you Logan. “ Logan, I want you to know that I have learned so much from you. From the first time I met you in middle school I knew you would be one of a kind and so very strong. When we ventured into USC together I never thought we would become so very close. You very quickly became my back bone when I wanted to move back home. When I was having a bad day your room was always open. My first year of college was a learning experience with you. We had to find out what living with strangers was about and when we really had to study and not goof off. When we moved in together I had a great time. You continued to teach me so much - like how to realllly clean, how to get over guy probelms, and how to be a strong person. I have so many great memories with you that are forever charished. I know that I will always look up to you. You helped me get through so much. You were so king and gentle but so protective and stong as well. My family thinks so much of you and all the fun time we all had together. Even though you will not be by my side at the football games you will always be on my mind. Your love of animals and creatures of every kind was amazing. I love you dearly and I will charish all of our adventures, bickering like sisters, and wonderful memories! Holly! As soon as I moved to college with Logan I immedialty new that yalls relationship was one of a kind. She absolutely adored and admired you. She loved you sooo soo very much. Your sister was amazing and the connection yall share was very rare! I am here for you! To the MacDonald Family, You are all in my family and my prayers. You raised a great young lady that taught so many of us so much. Lo made me want to acheive more and be successful. She is our angel now - she is beside you always! Her love for yall made me realize how important family relationship is. Logan loved all of you so very much. If you need anything at all, I will be here! I will miss you Lo! “ Please know how very sorry I am to learn of Logan's death. I am a clinical professor in the College of Nursing. I also lost my 31 yr. old son 7 years ago. Losing a child is a so very difficult for a parent no matter what their age. Our grief counselor encouraged us to share our story with others even strangers to help us begin to heal. I have done that over the years and it has been helpful. So I encourage you in a few months to begin to do that with others. Also find your daughter's spirit in everyday experiences--maybe a beautiful bird or flower or rainbow, a special song, a book and let her spirit speak out to you and comfort you. Allow your family and friends to lift you up and carry you for a while. Save your cards and notes for over a year and then return to them later and read them. Please know your grieving does not follow a set path but rather ebbs and flows with various levels of intensity. Take care of yourselves. These are a few things that I learned and that helped me. You are in my thoughts and prayers.##imported-begin##Ruth Q. Seigler##imported-end##

“ Dear Logan, We've known each other for years, but in the past year I feel like I have really gotten to know who you truly are. You are one of the strongest people I have ever been blessed to know. Your strength is what is what inspires me to get through this.... I want to be strong for you the way you have always been for me and everyone you knew. Your amazing spirit lives on in a part of everyone of us. I will always cherish every memory we've made together, from our gym days to our nights out on the town. You truly are one of my best friends, and I feel like I have lost a piece of me with you. I want you to know that you will always be with me and I will always love you. To Logan's family: Logan has been a blessing to everyone of her friends' lives. She will truly be missed and never replaced. She was one of those people who just drew you in and made you want to know her. Everytime I look at a picture of her, it amazes me how she just radiates. Her inner and outer beauty beams from her smile. A smile I will never forget. Even though I didn't get to meet many of you, I feel like I know you from everything Logan has told me about ya'll. She always talked about how close all of you were, and how much she loved you. She always made her friends an extended part of the family, and I want ya'll to know that you are a part of all of ours'. We love you.##imported-begin##Morgan Yarborough##imported-end##

“ Logan, Words cannot express how much it saddens me that I am writing this right now. I am so grateful for having the opportunity to meet and get to know you. In the short time that we got to know one another through clinicals, I learned how great a person you are, how big your heart was, and how fun you are. I always knew that you were going to be an extraordinary nurse. I'm so glad to have shared that experience with you. Remember the firetruck joke? Logan, I love you dearly. You will forever remain in my heart. I will keep you and your family in my prayers.##imported-begin##Ebony Farr##imported-end##

“ We have no words, but she did. We would like to share some excerpts from her website posted the day before she passed: About me: Ok...a lil' about myself. My real name is Logan. I'm a mix of Osage Indian/Scottish. Couldn't tell by the name?! I am originally from Portland Oregon, but my family moved around a lot and I have spent equal amounts living on both the West and East coast. Today, I consider Myrtle Beach my home, although I live in Cola, SC where I go to USC. I have one year left in Nursing school, and afterwards, depending on my grades, I plan to go to graduate school to become a Nurse Anesthetist \$\$\$\$!!!! I'm about 5'6, red-auburn hair, hazel eyes, fair complexion w/ a lil tan, and a curvy build w/ one big booty!!! Most ppl that know me say I'm extremely sweet and very outgoing, although first impression of me can come off kinda shy. I'm overly trusting which can be a bad thing at times and trustworthy...I'm the type of person that will do anything to make the people and animals I love happy. The most important thing in my life is my family. Without them I don't know how I could go on. I am the youngest in my fam and my one and only sister is my best friend. My brother is my protector and my parents...well, they are the creators and architects of my existence. What can be more important than that?! As for me, I'm pretty laid back. There are only a few things in life that can get me mad. But I must warn, once I'm there ya better watch out! N-E thing else you would like to know about me...just feel free to ask. I won't bite!!!! But I do scratch!!! ~J/K~Hence the name wolverine fits! General Livin life to its fullest, never hesitating or pausing for NEthing or NEone. “ Logan, You were my best friend, my confidant, my better half. There are no words to explain the bond that we shared. Everywhere I look, everything I touch, everything I hear, everything I smell...I see, feel, hear , and smell you, my dear sister. People think I am strong, but you were what made me so. My life is forever changed, a dark cloud looms. We have been best friends from the beginning, and we will remain so forever, because you are my heart. I am so sad and so lost without you, but I must find a way to go on. To Logan's friends: You were a huge part of her beautiful life. You meant so much to her. I love hearing stories about her, even if I have already heard them. Please continue to come visit us as often as possible. And, even after I return to Georgia, please keep in contact with me. Thank you so much for all your help during this difficult time. To Logan: You knew everything there is to know about me and truly understood me. You will live on in my heart forever. Although we were only around each other in school, she was such an inspiration to all. No matter if you were the closest friend to Logan or just an acquaintance from passing in the halls, everyone knew who she was, and that says alot about the type of person she was. Im sorry that I dont know you all personally to give a more personal note, but just know Logan touched many people in her time whether she knew it or not, and Im grateful to have known her. “ My sweet, beautiful sister and friend. I miss you so much. I am trying so hard to be strong for Holly and Mom, Dad, and Alex, because I know that is how you would be if it was one of us. It is so hard Logan. This is the most horrible pain I have ever experienced. Everywhere I turn I am reminded of your beauty and your love. I will never forget the fun times we shared. You always defended me. You would give up everything to take care of our animals, so Holly and I could go on vacation. You are the most level headed, caring, loving young woman I have ever known. I will always cherish the time we shared and all the happy memories. I am trying to keep the house clean and organized for you. Your love and your happy energy will live in my heart and my every thought forever. I always have and always will love you so very much. It brings me comfort to know you will never have to feel any pain or sorrow again. We are all so proud of all you have accomplished in your short time with us. I would like to sincerely thank all of our friends and family for all the love and support! You are loved by so many, and you have touched so many lives. “ To Logan's Family: Ever since I heard of this tragedy, I haven't been able to believe it. I was never a close friend of Logans, but I knew her throughout high school. I never thought something like this could happen to someone like her. She was a great person and always reached her hand out to help someone else. Her smile was always bright walking the halls of Socastee High, and everyone knew when she was around. It makes me sad to even think about it, gone so young. She was beautiful in every way possible, and I'm just so lucky to have known her. My prayers and thoughts are with you. To Logan: Thank you for always finding a way to make me laugh. “ Logan, I keep thinking about when you were here in Charleston, I remember everything so clearly, from the moment you arrived until the time you left. I told my parents and brother what had happened, my parents feel honored that they got the privilege of getting to meet you before you passed away. Brian is sad, but he is trying his best to stay strong. You and your family are within all of our prayers. I can't stop thinking about how we met at Socastee during Freshman year in high school, then I left...four years later we surprisingly meet again at USC, and now you left...however, there won't be anymore surprises like that, not down here anyways. I miss the long talks that we used to have every night until the sun came up and the birds were chirping. Things will never be the same without you here. I'm just thankful that you messaged me and that I got to know the cute redhead-girl that I always passed on campus. I feel honored to have had you as a friend...you are truly a special person and you will always be close within my heart. Someone like you only comes once in a lifetime...luckily enough I was able to be a part within your life and your time. It's not goodbye, it's more like "I'll see you later"...later is later. I will miss you my red-haired angel.##imported-begin##Phan Fonzy Nguyen##imported-end##

“ Words can't describe how I have been feeling since I heard the news of your loss. You were and always will be the most loving, compassionate, and driven person that I have ever known, and the truest friend anyone could ever have. But every time I start to cry, I think about all of the good times and memories that we shared together, and I can't help but smile. Life will never be the same without you, but I know that you are in a better place now, looking down on all the people you loved. You never realize how fragile life can be until you lose someone so close. Logan, you will always be in my heart and I will never forget that beautiful, amazing girl you always were...I am so lucky that I had you in my life. I love you! “ Logan, I'm still in a state of shock right now, but it's okay because I know you are in a better place. I'm truly blessed that I was able to share as many memories with you as I did. The tears that I cry are of joy, promise me that you will keep that big heart girl. I love you and you will be forever missed, but never forgotten.##imported-begin##Shemia Miller##imported-end##

“ Logan, I still can't come to realize what has happened yet. You are a great person and will be missed and always remembered. Always remember that life isn't measured by the amount of breaths that we take, but by all the moments that take our breath away. We know you're in a better place now. We will know that when we're crying for you, you're looking down on us smiling. You are a wonderful person, and I'm glad that I have the memories that I do with you! Thank you for that!###imported-begin##ashleigh kirby###imported-end##

“ Logan, what are the words that i can say to make everything all right ... there aren't any. it's just crazy when something like this happens. it has to hit close to home for anyone to realize it can happen to anyone of us. but i still see it as it wasn't your time girl. you had everything going for you. you were always the one who stood out in a crowd. and we no you always had are back for anything....you were... and still are a great person who will be truly missed by all. This is good-bye for now my friend but not forever.###imported-begin##angela klewinowski###imported-end##

“ I guess the words are what every other person that knew you is feeling, shock, disbelief. I've questioned so many times the past 2 days, how can God take somebody so beautiful in so many ways take that person away at such a young age. Then I realize the number of people you touched in your short life, and it's obvious...He needed another angel. I can only wish I had gotten to know you better, but the short time we did know each other, I grew close to you, and quickly learned what an unbelievable person you were and ARE we just can't see you. No more text messages, phone calls, or AIM conversations, but I know you're still there. I will never forget you Logan, and am certain I will "see you later!" To the parents and Holly, God Bless you. You are certainly in my prayers each and every day.##imported-begin##Josh Martin##imported-end##

“ To Logan's family, I came to know Logan through the SNA and a class I taught to her as a freshman. She was a warm, caring person. I feel blessed to having had the opportunity to interact with her and feel the nursing profession will be at a loss without her. My thoughts and prayers are with you. “ Logan, If I could only find the right words to say right now would this be ok. You were everything a friend could ever ask for, you were my protector, my care taker, and my best friend, and now my angel. You will never be forgotten and you are in my heart forever. I love you! "Life is short but sweet for certain" Holly, Mr. John, Mrs. Kay, and everyone else, we will all be ok she will be with us always. - Vanessa##imported-begin##Vanessa Stike##imported-end##

“ There is so little I can do or say to bring you consolation in the loss that's come your way, But may it help you and bring some comfort that others truly care and share your grief. We will all miss Logan but she will always be in our hearts. I love you all so much. I will always remember the basketball games and the times we all spent together here in Portland.##imported-begin##Jessica Henry##imported-end##

“ Logan, I just keep looking around our apartment and hoping to hear your keys rattling in the door. I keep waiting for you to come home. Salvie, Jasper, and I are lost without you. You were not only the perfect roommate, but you were also the perfect friend. I just keep thinking about all of the good times that we shared together. But what I miss most are the nights that we would spend chatting away. Those are the memories that I hold most dear. You were everything to everyone. You were my friend and stronghold. You were always the one that assured me that things would be okay. I miss my friend and I know that Salvie misses his Mommy. I promise you that I will take wonderful care of Salvie. I never realized that one little apartment could seem so empty - but I guess all things seem empty if you take the "heart" away. Logan, you were the heart of all and you will always have a special place in my heart. I love you more than words can say. I will miss our hair trips to Rock Hill. I will miss our days out by the pool. I will miss our nights out and our trips to San Jose, but most of all Logan, I will simply miss my friend. You were a great friend to me. My heart goes out to your family. Kay, John, Holly, and Alex: I am so very sorry for your loss and I wish you all strength during these times. I know that Logan loved you all so very much. And Logan: Remember that we all love you very much and you will live on in our hearts forever.##imported-begin##Krista Ashley##imported-end##
