“ I was very saddened to hear about Bobby's death. Allow I had not seen him since we were teenagers, I just want to send my payers to his wife and family. My family would visit his family in Harrisburg where he lived with his mom and dad and sister. My mom was his mom's sister Leah. As cousins we grew and eventually made our own lives and had our own families, but still I will cherish those times our family had together.

*Bobby, you were taken too soon and will be forever in my heart.*
