“ I do remember Sandra being her neighbor in the late 50's and 60's. I do remember one winter when we would all slide down the hill towards the river she being the youngest and smallest. You can guess what happened next. Yes that right! She made it all the way and in she went.

It's going on 50 years since I have seen Sandra I have seen her sister once in a while shopping. I'm sorry to hear of here passing.
