“ She was the strongest woman I have ever known and the best mommy. All she had to endure through life would have broke most. But not her. I couldnt have asked for better parents. She is with Jonathan now and no longer in pain. To the moon and forever...

“ Sweet Cousin Rene, I'm so sorry for the loss your immediate family are feeling, but I'm happy for you to be on your next journey, hand in hand with Jonathan and Tony, where peace sets.

You are the first person (and only) I've ever known that had goats as pets. When I met them, I learned they are very much like dogs. I love you, and although I haven't been out to visit in a long time, I will miss you, knowing you're no longer on this earth with us.

For everyone feeling the grief right now, remember we're all here only for a short time. It's only bye for right now. Some sooner, some later, we'll all be reunited with Rene.
